Are you future leader? Do you want a career with real purpose?

Future Leaders Programme 2016

with international rotation

Our 2 years accelerated development program equips graduates (**Medical Doctor, Dentist, Pharmacist, Chemist, Chemical Engineer, Industrial Pharmacist, Biochemical Engineer, Biologist**) with the knowledge, skills and attributes to move quickly into senior positions at GSK. Participants benefit from a rich variety of structured training, individual mentoring, and opportunities to experience different aspects of the business in Hungary and abroad. From the start, our challenging rotations will help you deliver the standards of excellence that we'd expect from a future leader.

About rotation

- **6 month / period**
- **2 periods in Hungary, 2 periods in abroad**

There are two positions available upon your interest:

1. Commercial Management:

From the start, your job rotations will provide a high level of responsibility and a breadth of experience across the core areas of our commercial business. You'll quickly develop the foundation skills, knowledge and experience that a future leader would need to know. Specifically, we'll help you build skills in marketing, sales, project and customer management.

2. Vaccines Manufacturing Operation & Quality:

The programme is tailored to enable you to develop your knowledge and experience while broadening your global business perspectives. You will start with a one year rotation on the shop floor to be at the heart of our operations activities (Production or Quality Control) followed by two 6 months rotations respectively in Quality & Supply Chain Management.

What is the programme exactly be like? What do I need to succeed? How do I apply?

Apply and get more information: <http://www.gsk.hu/karrier-future-leaders-pharma.aspx> or visit www.futureleaders.gsk.com select Hungary and click **apply now!** Applications open till **15 June 2016**
