

Evaluation of feedback results and comments on digital education

September 2021

	1.	2.	3.	4.	5.	6.	Total scores:
magyar program	3,79	4,17	3,99	3,67	3,98	text answers	3,92
English program	3,83	3,93	3,90	3,71	3,78	text answers	3,83

Questions:

1. How satisfied are you with the organization of the digital education?
2. How satisfied are you with the teaching materials provided on the e-learning system?
3. How satisfied are you with the work of the teachers?
4. To what extent do you feel, that the acquirement of the knowledge needed for your progress is ensured within the framework of the digital education?
5. To what extent can the courses be completed based on the tasks received in the e-learning system?
6. Which course/courses did you experience to have an essential problem?

Student feedback performed on September 2021, 91 responses were given in the Hungarian program, which is 26.5% of the total number of students. Among the responses, we received 5 negative comments, which are partly related to an educational unit and largely reflect the refuse of the digital form of education. For these students, the average grade was below 3.00.

The number of positive feedback in question 6 was in 3 cases, here the evaluation average is above 4.00.

During the measurement in September 2021, 58 responses were made in the English program, which means a 26.12% response in terms of the total number of students. Among the responses received, we got 12 negative comments, which is partly related to an educational unit and mainly reflect the refuse of the digital form of education.
